

# SELLO CLINTON FOTOYI | WEB DEVELOPER

4283 Halfbeak Street, Kaalfontein, Midrand · +27-73-078-3775

[selloclinton@gmail.com](mailto:selloclinton@gmail.com) · [LinkedIn/Sello Fotoyi](#) · [sellofotoyi.netlify.app](https://sellofotoyi.netlify.app)

I am a recent graduate which, over time, have developed a curiosity-field enthusiasm and a passion for web development, and have thus acquired corresponding skills through a self-learning initiative. My objective is to be granted a platform to demonstrate and improve my current skills and capabilities, while growing professionally. I have listed some of my projects below.

## PROJECTS

### TYPESCRIPT OASIS

<https://sellofotoyi-oasis.netlify.app/>

*Technologies:* ReactJS, CommerceJS, StripeJS and CSS3 | SASS

*Description:* The web app implements basic logic of an e-commerce store, such as adding an item to cart, viewing more details of an item, editing a cart (clearing it, altering an item's quantity or removing it from cart), and checkout procedure.

### RECIPE ME!

<https://sellofotoyi-recipe.netlify.app/>

*Technologies:* ReactJS, Axios and CSS3|SASS

*Description:* The project is an implementation of a web application which, through interaction with a 3<sup>rd</sup> party API, renders recipes. Features include searching recipes by a keyword, ingredients, or random recipes categorized by meal type.

### THE GREEN LEAF INITIATIVE

<https://sellofotoyi-npo.netlify.app/>

*Technologies:* HTML5 and CSS3|SASS

*Description:* The project is an implementation of a web application which, through interaction with a 3<sup>rd</sup> party API, renders recipes. Features include searching recipes by a keyword, ingredients, or random recipes categorized by meal type.

## EDUCATION

2019

**BSC ELECTRICAL ENGINEERING**, UNIVERSITY OF THE WITWATERSRAND

Majored in Power Engineering, Control Systems and Electromechanical Conversion

## SKILLS

- HTML5
- CSS3 & SASS
- JavaScript & ReactJS
- Git & Github
- Teamwork
- Detail-orientated
- Time management
- Strategic problem-solving
