

SELLO CLINTON FOTOYI

WEB DEVELOPER

ABOUT

I am a recent graduate with a developing and enthusiastic passion for web development. Through a self-learning initiative, I have acquired a competitive skillset, currently specializing in Frontend Web Development. My objective is to be granted a platform to demonstrate and improve these skills and capabilities, and an opportunity for career growth.

BSc Electrical Engineering | 2019

UNIVERSITY OF THE WITWATERSRAND

- Majored in Power and Control Engineering
- Distinction in Software Development I

NSC | 2010

MOSUPATSELA SENIOR SECONDARY SCHOOL

Science stream. 3 distinctions.

PROJECTS

Typescript Oasis

<https://sellofotoyi-oasis.netlify.app/>

Technologies: ReactJS, CommerceJS, StripeJS and CSS3 | SASS

Description: The web app implements basic logic of an e-commerce store, such as adding an item to cart, viewing more details of an item, editing a cart (clearing it, altering an item's quantity or removing it from cart), and checkout procedure.

Recipe Me!

<https://sellofotoyi-recipe.netlify.app/>

Technologies: ReactJS, Axios and CSS3 | SASS

Description: The project is an implementation of a web application which, through interaction with a 3rd party API, renders recipes. Features include searching recipes by a keyword, ingredients, or random recipes categorized by meal type.

The Green Leaf Initiative

<https://sellofotoyi-npo.netlify.app/>

Technologies: ReactJS, Axios and CSS3 | SASS

Description: This a landing page aimed at demonstrating my ability to translate specifics of a design, from an artboard to an actual website. The design can be found [here](#)

CERTIFICATIONS
