## TECHNOLOGIES

| HTML | CSS | Javascript |
|------|-----|------------|
| **Sass** | **ReactJS** | **Git** |

## SOFT SKILLS

| Patience | Communication |
|----------|---------------|
| **Teamwork** | **Working under pressure** |
| **Strategic Problem-solving** | **Detail-orientated** |

**Time management**

## HOBBIES

## PHYLOSOPHY OF LIFE

"I hear and I forget. I see and I remember. I do and I understand."
-Confucius

# ABOUT ME

I have always wondered how web applications worked and, before I knew it, what started off as a random Google search had resulted in a developing curiosity-fueled passion for web development.

My objective is to be granted a platform to demonstrate and improve the skills I have acquired since the embarkation of this life-long learning journey, whilst growing professionally and contributing to the simplification of human lives. I have listed some of my projects which attest to my skills and abilities.

# EDUCATION

*Class of 2019*   **BSc Engineering (Electrical)**
**UNIVERSITY OF THE WITWATERSRAND**
**Majors:** Control, Power Engineering, Electromechanical Conversion

*Class of 2010*   **NATIONAL SENIOR CERTIFICATE**
*MOSUPATSELA SENIOR SECONDARY SCHOOL*
**8 subjects, 3 distinctions**

# PROJECTS

## Typescript Oasis (https://sellofotoyi-oasis.netlify.app/)

*Technologies:* ReactJS, CommerceJS, StripeJS and Sass

*Description:* The web app implements basic logic of an e-commerce store, such as adding an item to cart, viewing more details of an item, editing a cart (clearing it, altering an item's quantity or removing it from cart), and checkout procedure.

## Recipe Me! (https://sellofotoyi-recipe.netlify.app/)

*Technologies:* ReactJS, Axios and Sass

*Description:* The project is an implementation of a web application which, through an API, renders recipes. Features include searching recipes by a keyword, ingredients, or random recipes categorized by meal type.

## The Green Leaf Initiative
(https://sellofotoyi-recipe-me.netlify.app/)

*Technologies:* HTML and Sass

*Description:* This a landing page aimed at demonstrating my ability to translate specifics of a design, from an artboard to an actual website. The design can be found here
